Professional Summary

I am a Computer Science graduate (BS Computer Science, 2022–2026) with hands-on training in Python, and Web Development. I enjoy building websites and solving problems with code. My goal is to work as a Full Stack Developer and create complete web applications using both front-end and back-end skills.

Technical Skills

- **Programming:** Python (Advanced, NAVTTC certified), Object Oriented Programming, Data Structures & Algorithms
- **Web & Mobile:** Web Design and Development, Mobile Application Development, Web and Mobile App Development (Saylani)
- **AI & Data:** Machine Learning, Artificial Intelligence, Data Mining, Digital Image Processing
- **Core CS:** Database Systems, Operating Systems, Computer Networks, Wireless Networks, Compiler Construction, Parallel & Distributed Computing
- **Software Practices:** Software Engineering, Software Project Management, Information Security

Other Skills

- Front-End Development (HTML, CSS, JavaScript)
- Backend Development (Node.js + Express – Beginner)
- Programming Languages: C, C++, Python
- Database: MySQL, MangoDB
- MS Office Suite

Education

BS Computer Science - FATA University, FR Kohat (2022-2026)

- CGPA: 3.43 | Grade: B
